CREDITORS' VOLUNTARY LIQUIDATION

This is the UK's most common way to close an insolvent company. Over 40+ years we've helped 1000s of businesses through the CVL process, offering guidance and reassurance every step of the way.

COMPANY VOLUNTARY ARRANGEMENT

If your client needs advice on negotiating with creditors or help making a formal arrangement like a CVA, speak to our experts. We'll take the time to get to know their situation and their goals, to get the best plan in place for them.

ADMINISTRATION

If you think your client's business has potential, we can arrange a Company Administration or Pre-pack for them.

We'll also provide guidance on restructuring their business to prepare it for a more profitable future.

MEMBERS' VOLUNTARY LIQUIDATION

We are usually able to release the funds from a company before we liquidate its assets, so that our clients can start enjoying the fruits of their labours immediately.

START AFRESH LIQUIDATION

We are able to use a CVL to sell the goodwill and assets of the old company to the company director(s), so that the business can continue under a new company.

COMPULSORY LIQUIDATION

We'll work alongside your client to give them advice and reassurance, so they - and you - know that the best action is being taken.

GET IN TOUCH

Our experts are on-hand to talk about your client's situation and guide you through the options available to them.

Get in touch directly or pass our information to your client for confidential, impartial advice.
